

# VCE VET Furnishing

## Sample Questions

### Written Examination – End of Year

---

In 2024, the following changes have been made to the VCE VET Furnishing program:

- unit of competency MSFFP2001 'Undertake a basic furniture making project' has been superseded by MSFFP2020 'Undertake a basic furniture making project'.
- unit of competency MSFFM2002 'Assemble furnishing components' has been superseded by MSFFM2019 'Assemble furnishing products'.
- unit of competency MSFFM2001 'Use furniture making sector hand and power tools' has been superseded by MSFFM2013 'Use furniture making hand and power tools'.

The following sample questions are intended to demonstrate how new aspects of these units of competency may be examined. They do **not** constitute a full examination paper.

---

### Section A – Multiple-choice questions

#### Question 1

Howard is building 10 mobile cabinets to accompany the 10 desks that he has made. Each cabinet is fitted with a drawer and a door.

What material is best suited for the drawer bottoms?

- A. plywood
- B. blockboard
- C. checker plate
- D. medium-density fibreboard

#### Question 2

Ivy needs to change the blade in her jigsaw.

What is the correct procedure Ivy should follow before attempting to change the jigsaw blade?

- A. Turn off the power point and pull out the plug, while holding the lead.
- B. Stand on the lead in order to pull the plug out of the power point.
- C. Turn off the power point and pull out the plug while holding on to it.
- D. Turn off the power point, leaving the plug inserted in the outlet.

**Question 3**

After drilling 10 holes in a brick wall surface, the accepted method to clean up the residual masonry dust is to

- A.** use a broom and spade, spreading the dust.
- B.** sweep the dust into a pile and remove it later.
- C.** use a vacuum cleaner and water mist spray bottle.
- D.** use a blower, moving the dust away from the area.

SAMPLE

## Section B

### Question 1 (3 marks)

Describe a maintenance logbook and explain its purpose in the workshop.

---

---

---

---

### Question 2 (2 marks)

Jonathon has just finished cleaning his hand and power tools with an appropriate cleaning agent that had been decanted from a 25 L drum. Tipping the residue back into the drum will contaminate the contents of the drum.

Explain what Jonathon should do with the waste product instead.

---

---

---

SAMPLE

### Question 3 (3 marks)

Describe **three** types of maintenance that should be performed on a hand plane.

---

---

---

---

**Question 4** (4 marks)

Thin manufactured board materials are to be used for drawer bottoms in a kitchen environment.

Compare the two materials in the table below by providing **one** advantage and **one** disadvantage of using each material for this task.

4 mm medium-density fibreboard	4 mm 3-ply plywood
Advantage	Advantage
Disadvantage	Disadvantage
