**VCE VET Engineering, and VCE VET Automotive**

**Get VET**

# MY VET SUCCESS STORY
## MASON
### Light Vehicle Automotive Apprentice

---

### 3 words that describe VET:
Practical. Fun. Great.

**Secondary school:** Bright P–12 College
**Location:** Bright
**VET qualifications:**
- Certificate II in Engineering Studies
- Certificate II in Automotive Studies (Pre-vocational)

VICTORIAN CURRICULUM AND ASSESSMENT AUTHORITY

VICTORIA State Government

---

## VET allowed me to develop good industry skills and get a lot of good experience.

### WHY I CHOSE VET
I chose VET because I wasn't a very academic student and I wanted a way to learn by being hands-on.

### WHAT I GOT OUT OF VET
VET allowed me to develop good industry skills and get a lot of good experience. I was able to explore my abilities and really challenge myself along the way. VET allowed me to choose the career path that I am currently pursuing.

### MY VET SUCCESS STORY
After school with the certificates I had from VET, I was accepted into Motorsports Training Australia. I completed a two year, full-time course in motorsports as a pit crew mechanic. I am currently doing my apprenticeship at Alpine Auto Repairs in Bright.

### MY ADVICE
My advice to VET students is to listen to the teacher and learn as much as you can. The skills you gain in VET can get you a great job in a field you love.
